Full-Stack Developer | kylrose266@gmail.com | 419-266-5967 | [GitHub](#) | [Portfolio](#)

ABOUT

Software developer with a Bachelor of Science in Computer Science with a focus on building full-stack web applications.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, SQL

Frontend: HTML, CSS, JavaScript

Backend: Node.js, Express

Database: PostgreSQL, MySQL

Tools: Git, GitHub, Vercel, Render

Concepts: REST APIs, CRUD, Authentication, Sessions, DOM Manipulation

PROJECTS Full-Stack Task Manager App | Node.js, Express, PostgreSQL, JavaScript

[Live](#) | [GitHub](#)

- Developed and deployed a full-stack task management application with authentication, CRUD operations, and PostgreSQL database integration.
- Implemented user authentication and session management using Express.
- Designed and connected a PostgreSQL database for persistent task storage.
- Developed RESTful API endpoints for CRUD operations.
- Added demo account with automatic data reset for improved user experience.

GitHub User Search App | HTML, CSS, JavaScript, GitHub REST API

[Live](#) | [GitHub](#)

- Developed and deployed a frontend app that fetches and displays user data from the GitHub API.
- Implemented asynchronous API calls and error handling.
- Added local testing mode for development without API dependency.

Interactive Background App | HTML, CSS, JavaScript (DOM Manipulation)

[Live](#) | [GitHub](#)

- Developed and deployed an interactive web app allowing users to dynamically change background colors.
- Implemented DOM manipulation and event handling using JavaScript.
- Designed responsive UI with HTML and CSS.

WORK EXPERIENCE

Independent Content Creator | 2023–2025

- Managed large volumes of content and maintained detailed records of projects, schedules, and revisions.

Shift Manager, Papa John's | 2021-2022

- Led team operations and handled transactions

EDUCATION

Bachelor of Science in Computer Science

Southern New Hampshire University | 2025
